

Case No.	Case Name	Case Type	Case Status	Case Date	Case Time	Case Location	Case Description	Case Notes	Case Comments
1	John Doe	Medical	Open	2023-01-01	10:00	Room 101	John Doe, 45 years old, male, presented with chest pain and shortness of breath. ECG showed ST-segment depression. Initial treatment with aspirin and nitroglycerin was administered. Patient was transferred to the cardiac catheterization lab for further evaluation.	ECG: ST-segment depression in leads II, III, aVF, and V4-V6. Troponin T: 0.05 ng/mL. Creatinine: 1.2 mg/dL. HbA1c: 6.5%.	Cardiologist: Dr. Smith. Referral: Dr. Jones.
2	Jane Smith	Medical	Closed	2023-01-02	11:30	Room 102	Jane Smith, 62 years old, female, presented with a fall and head injury. CT scan of the head showed a small subdural hematoma. Patient was admitted to the medical ward for observation. The hematoma resolved over the next 48 hours, and the patient was discharged on day 3.	CT Head: Small subdural hematoma in the right parietal region. No midline shift. Glasgow Coma Scale: 15/15. Discharge instructions: No heavy lifting, avoid alcohol, and take pain medication as prescribed.	Neurologist: Dr. Brown. Referral: Dr. Green.
3	Michael Johnson	Medical	Open	2023-01-03	09:00	Room 103	Michael Johnson, 58 years old, male, presented with a persistent cough and weight loss. Chest X-ray showed a mass in the right lung. Further workup with a PET-CT scan and biopsy is pending. Patient is on a trial of empiric antibiotics.	Chest X-ray: Mass in the right lung base. PET-CT: Increased FDG uptake in the right lung mass. Biopsy: Pending results.	Oncologist: Dr. White. Referral: Dr. Black.
4	Sarah Davis	Medical	Closed	2023-01-04	14:00	Room 104	Sarah Davis, 35 years old, female, presented with a severe allergic reaction to a medication. Symptoms included hives, swelling, and difficulty breathing. Emergency treatment with antihistamines and steroids was administered. Patient was admitted to the ICU for monitoring. She was discharged on day 2 with a prescription for a steroid taper.	ICU Notes: Allergic reaction to amoxicillin. Symptoms resolved with treatment. Discharge on prednisone 40mg daily for 10 days.	Allergist: Dr. Gray. Referral: Dr. White.
5	Robert Wilson	Medical	Open	2023-01-05	08:00	Room 105	Robert Wilson, 70 years old, male, presented with a urinary tract infection and confusion. Urinalysis showed leukocytes and nitrites. Blood cultures were negative. Patient was started on intravenous antibiotics. The confusion resolved over the next 24 hours.	Urine: Leukocytes, nitrites. Blood: Negative. Discharge on ciprofloxacin 500mg BID.	Urologist: Dr. Black. Referral: Dr. Gray.
6	Emily Brown	Medical	Closed	2023-01-06	16:00	Room 106	Emily Brown, 28 years old, female, presented with a severe headache and vomiting. CT scan of the head showed a large aneurysm in the anterior communicating artery. Patient was admitted to the neurosurgery ward. The aneurysm was successfully treated with microsurgical clipping on day 4.	CT Head: Large aneurysm in the anterior communicating artery. Neurosurgery: Successful clipping. Discharge on aspirin.	Neurosurgeon: Dr. White. Referral: Dr. Brown.
7	David Miller	Medical	Open	2023-01-07	12:00	Room 107	David Miller, 65 years old, male, presented with a persistent fever and night sweats. Blood work showed anemia and elevated inflammatory markers. Further workup with a bone marrow biopsy and imaging is pending. Patient is on empiric antibiotics.	Blood: Anemia, elevated CRP. Bone Marrow: Pending results. Imaging: Pending.	Infectious Disease: Dr. Green. Referral: Dr. White.
8	Lisa Anderson	Medical	Closed	2023-01-08	10:00	Room 108	Lisa Anderson, 40 years old, female, presented with a severe asthma attack. Symptoms included wheezing, chest tightness, and difficulty breathing. Emergency treatment with inhaled corticosteroids and systemic steroids was administered. Patient was admitted to the medical ward. She was discharged on day 2 with a prescription for a steroid taper and an inhaler.	Asthma: Severe attack. Symptoms resolved with treatment. Discharge on prednisone and albuterol inhaler.	Pulmonologist: Dr. Black. Referral: Dr. Gray.
9	James Taylor	Medical	Open	2023-01-09	09:00	Room 109	James Taylor, 55 years old, male, presented with a persistent cough and weight loss. Chest X-ray showed a mass in the left lung. Further workup with a PET-CT scan and biopsy is pending. Patient is on a trial of empiric antibiotics.	Chest X-ray: Mass in the left lung base. PET-CT: Increased FDG uptake in the left lung mass. Biopsy: Pending results.	Oncologist: Dr. White. Referral: Dr. Black.
10	Maria Garcia	Medical	Closed	2023-01-10	11:00	Room 110	Maria Garcia, 30 years old, female, presented with a severe allergic reaction to a medication. Symptoms included hives, swelling, and difficulty breathing. Emergency treatment with antihistamines and steroids was administered. Patient was admitted to the ICU for monitoring. She was discharged on day 2 with a prescription for a steroid taper.	ICU Notes: Allergic reaction to amoxicillin. Symptoms resolved with treatment. Discharge on prednisone 40mg daily for 10 days.	Allergist: Dr. Gray. Referral: Dr. White.
